ESTABLISH FLAG ON SEAS, SAYS PLUMMER

Shipping Board Commissioner Explains Necessity of Ship Subsidy Act.

By EDWARD C. PLUMMER,
Commissioner of the United States Shipping Board.

Written for Cosmopolitan News Service.
BOSTON, Nov. 24.—One more effort is being made in Congress today to restore the United States flag to its rightful position upon the seas.

Subsidies to ships are designed not merely to encourage shipbuilding and ship operation, but for the larger purpose of developing the ocean trade of this country and establishing a vitally important industry.

We seek no monopoly in trade. We recognize that from the very nature of her empire, Great Britain will may aspire to have a merchant tonnage three times the size of that which may carry our flag in foreign trade; but every American can and should stand squarely on the proposition enunciated by Fisher Ames of Massachusetts, that we must always have a merchant fleet capable of handling 60 per cent of the cargoes which our people furnish to and take from the other nations of the world.

Forefathers Were Seamen.
Our forefathers were children of the sea. It was from the sea, from the ships of our enemy, that the fearless mariners of Revolutionary days snatched those supplies which brought success to Washington at Dorchester Heights; it was from this port that they went forth the venturesome Columbia that found, and gave her name to, the Pacific's mighty river, thus staking the claim which gave to this country an empire in the great Northwest.

It was wealth won from commerce that did a measureless work in changing 3,000 miles of untrodden wilderness into rich and populous States, and it is upon commerce now that the fullest prosperity of the country must rest.

It was Washington, in his message to Congress, and Jefferson, in his report as Secretary of State, who demonstrated the absolute necessity of a merchant marine for the producers and consumers of this country, and who secured those laws which gave direct, as well as indirect, aid to merchant shipping.

Would Co-ordinate Traffic.
So long as these laws remained we flourished upon the sea. When they were abandoned, the warning words of Madison were verified—our shipping disappeared.

The fundamental thought in the pending shipping bill is to be found in title 6, which compels the co-ordination of rail and water transportation. That provision means the practical elimination of freight blockades, the regular travel of cargoes along their natural courses.

Every improvement in, and cheapening of, transportation means an increase in the amount of cargoes transported. The proposed improvements in transportation facilities meaning a corresponding increase in the world's international trade—an increased ocean business in which the ships of all maritime nations will have a share, and in which we propose that hereafter, as of old, the United States shall have its proper part.

SHELL 500,000 YEARS OLD
DUG UP IN NEW YORK

NEW YORK, Nov. 24.—A shell, found 100 feet below the surface by excavators for the Federal Reserve Bank in the heart of the financial district, is that of a clam at least half a million years old, according to a report from scientists of Cornell University received by an officer of the bank.

The shell, thicker than that of any living clam and of an oval shape, puzzled amateur geologists, who thought at first it had once belonged to an oyster of some extinct species of bivalve. It was presented as a souvenir to Benjamin Strong, governor of the Federal Reserve Bank, and one of his assistants forwarded it to Cornell for identification.

BOOTLEGGERS' BAIL IS
PUT AT \$9,000,000

SAN FRANCISCO, Nov. 24.—Nine million dollars in bail bond money has been deposited in the Federal court in the past eleven months to secure release of some 4,000 alleged bootleggers, Federal Prohibition Agent Samuel F. Rutter revealed in statistics made public today. At present more than \$4,000,000 is on deposit, assuring the liberty of persons whose cases have not come to trial. Rutter estimates that to permit this enormous amount of idle capital the bootlegging "profession" must have a capital of \$35,000,000 or more. Bail in each case amounts from \$1,000 to \$5,000.

BUILD UP YOUR VIGOR FOR WINTER

In the fall your blood is thin and your vitality low. That's why you suffer from coughs and colds, and feel all run down and dragged out.

Gude's Pepto-Mangan will enrich your blood, tone you up, and give you the resting power to ward off illness. Begin to take it now; it may save you sickness and suffering later on.

Physicians have recommended and prescribed Gude's for over 30 years.

Your druggist has it—liquid or tablets, as you prefer.
